

Jack

here is what I have not covered in detail

complete argument that ted killed patricia himself
(I will just mention it)

basic argument that ted hired somebody else to kill v
(again I will mention it)

pardee and nichols: I just mention them in passing

church (I have not heaped loads of shit on him, though I
have brought up a number of his shortcomings)

Jeff clark: church never denied the pictures and we can
certainly say that he didn't come across as a truthful
witness, but church was the one who talked to him first and
that was why we put him up

woodberry: I just sort of touched on him not a whole lot.
